1.1 General navigation

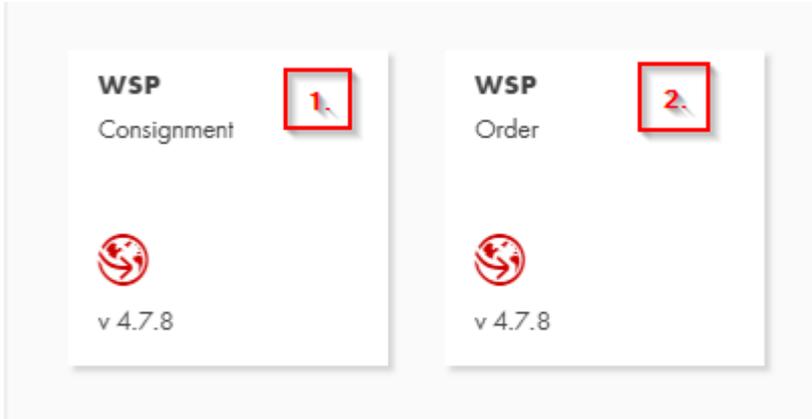

At the top on the right hand side there is a window where you can select the following functions:

- Select language (click on this field and select the preferred language)
- User manual (the user manual is stored here. If there are any changes, the current version will be available here).
- Registered suppliers (deposited)
- System requirements (to work with WSP you need Chrome, Firefox or Edge (for further details please read the minimum requirements)
- Logout (here you exit the program)

1.2 Basic Template

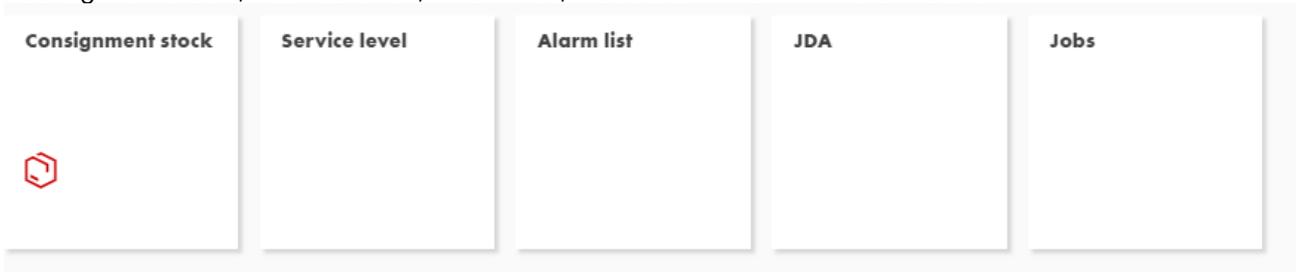

WSP is divided into the buttons «WSP Consignment» (1.) and «WSP Order» (2.).

1.2.1 WSP Consignment

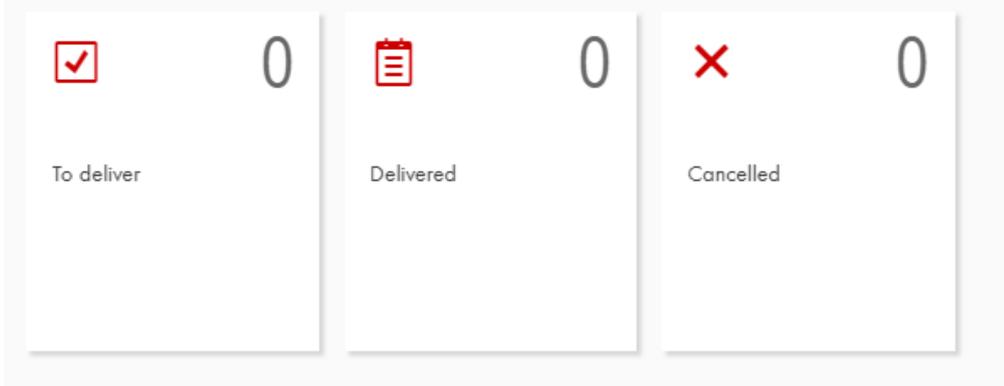

«WSP Consignment» (1) contains the following lists:

«Consignment stock», «Service level», «Alarm list», the access link to «JDA» and «Jobs».

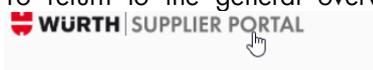

1.2.2 WSP Order

If you want to deliver the goods, change or cancel the quantity you need to select «WSP Order» (2).

To return to the general overview, simply click on the field «Supplier Portal» in the top left-hand corner.

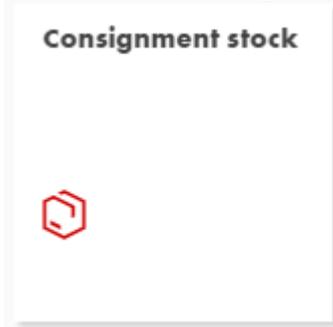

WSP Consignment

2. Consignment stock

2.1 Selection screen

Select the «WSP Consignment» button and then click on «Consignment stock».

2.2 Evaluation

With this list you have a total overview of quantity and value.

The following information is included in the evaluation:

Consignment stock						
Material number	Würth material no...	Material description	Origin	Preference	Lot number	Quantity
<input type="checkbox"/> 0.601.93A.30U	070023502 961 1	ANGLGRIND-CORD;(EWS18-A/115MM)-WO.BTRY				239
<input type="checkbox"/> 0.601.93A.30T	07002353 961 1	ANGLGRIND-CORD;(EWS18-A/115MM)-2X4,0AH				370
<input type="checkbox"/> 0.601.93A.30R	070023601 961 1	ANGLGRIND-CORD;(EWS18-A/125MM)-WO.BTRY				4

Explanation:

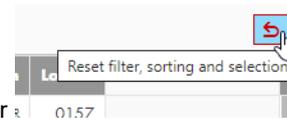

Material number	Article number of supplier
Würth material number	Article number of Würth
Material description	Item description
Origin	Country of origin
Preference	Origin preference
Lot number	Lot number
Quantity	Current available stock
Worth	Total value of this item
Location	Internal storage location, Konsi storage location in Landquart

The individual columns/headings can be sorted via filters. This applies to all lists (stock by date, service level, material movement and alarm list).

Example: The material number can be sorted in ascending or descending order, or you can enter a material number next to the field «Filter» so that only this one item appears.

Consignment stock

Material number	Würth material nu...	Material description
Sort Ascending	3502 961 1	ANGLGRIND-CORDL(EWS 18-A/115MM)-WO.BTRY
Sort Descending	353 961 1	ANGLGRIND-CORDL(EWS 18-A/115MM)-2X4,0AH
Filter 0.601.93A.30S	3601 961 1	ANGLGRIND-CORDL(EWS 18-A/125MM)-WO.BTRY
0.601.93A.30S	07002363 961 1	ANGLGRIND-CORDL(EWS 18-A/125MM)-2X4.0AH

If you want to delete the filter, click on the arrow in the upper right corner «Reset filter, sorting and selection».

If you want to have more detailed information about the consumption of an article, click directly on the Würth material number (blue number).

Close

In order to get back click on the «close» button.

You have the possibility to select an item with the check mark on the left in order to directly access the following list: **Stock by date, Service level, Material movement and Alarm list.**

<input type="checkbox"/>	Materialnummer	Würth Materialnu...	Materialbeschreibung
<input checked="" type="checkbox"/>	W67520000	0648702045061 1	BO-HAM-PLUS-QUADRO-S-4SPRL-20/450/400

The mentioned lists can be found at the very bottom on the right side. If you click on the red arrow or the box next to the alarm list, you will have the additional possibility to download the corresponding list as a CSV file or into Excel.

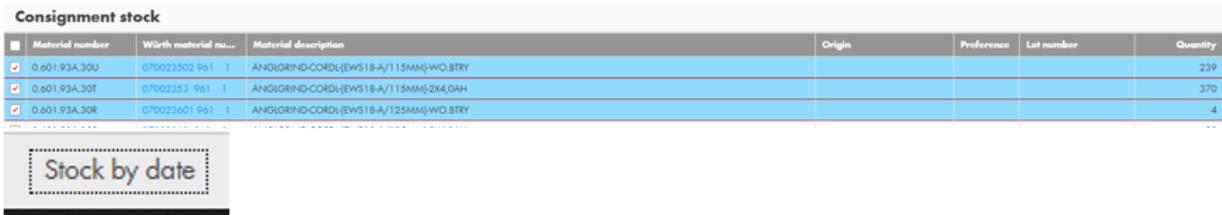

For more detailed information on «stock by date», please refer to page 6, on «Service level», page 7, on «Material movements», page 8, and on the «Alarm list», page 10.

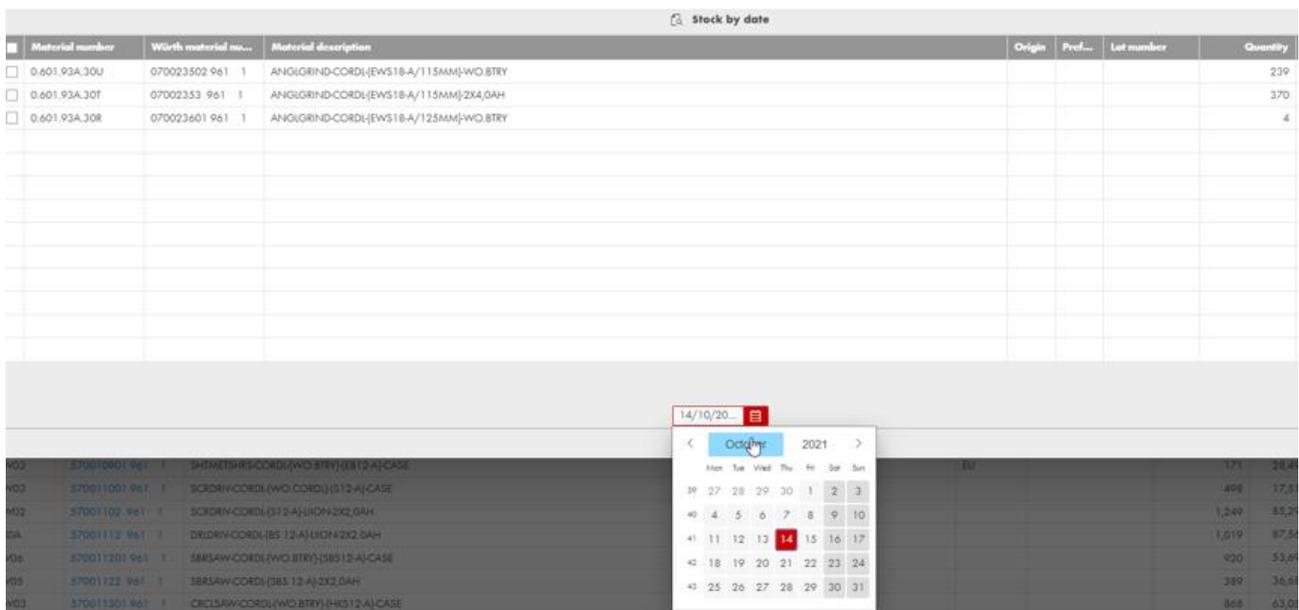

3. Stock by date

3.1 Selection screen

Stock per date can only be accessed as a sub-heading. Select the button «WSP Consignment» then click on «Consignment stock» and then select all items or only a specific item in order to access the «Stock by date list». The mentioned list can be found at the very bottom on the right side.

3.2 Evaluation

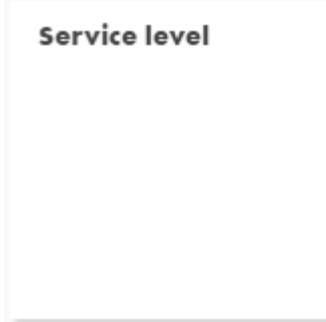

At the bottom you can select the requested date in the selection window.

Explanation:

- Material number** Article number of supplier
- Würth material number** Article number of Würth
- Material description** Item description
- Origin** Country of origin
- Preference** Origin preference
- Lot number** Lot number
- Quantity** Current available stock
- Worth** Total value of this item
- Location** Internal storage location, Konsi storage location in Landquart

4. Service level

Under the heading «WSP Consignment» you will find the service level.

4.1 Selection screen

In order to access the service level for a specific time period, select «WSP Consignment» and then click on «Service level».

4.2 Evaluation

Service level 25%							
Date	Delivered quantity	Open quantity	Service level	Order number	Partner		
0110W8243	099200 25 061 72	MASKTPE-CRP-HEATRES-25MMX50M	25%

Definition of terms used:

ABC key

ABC by pick: Our ABC Code WINT /importance of the item for us

Location

Internal storage location, Konsi storage location in Landquart

Plant

CH00 for Würth International

ATP Stock

ATP=Available to promise. Stock that is not reserved (for sales orders or deliveries).

Physical Stock

Current stock in the warehouse

Material status

Status of the item

Coverage

Coverage in working days (1 month = 20 working days)

Consumption average

Average weekly demand over the last six months

Monthly demand

Quantity that has already been sold in the current month

Orders

Total open quantities of supplier order

Current backlog

Backorder quantities of the current item

Number	- Order-no. supplier (starting with 0089...) - Customer order-no. (starting with 211...) - Goods of the supplier are on the way (starting with 10138...=dispatch-no.) - Goods from Landquart to the customer are on the way (starting with 835...).
Partner	Würth customer or supplier
Open quantity	Open order quantity
Delivery date	Delivery date order supplier: Arrival date in Landquart Delivery date customer order: Requested delivery date of the customer
Goods ready date	Date on which the goods are ready for collection from the supplier
Booking date	Pick-up date (the date on which the goods leave the supplier's warehouse). The date is only visible when goods are in transit.

WSP Order

7. To deliver

To view, edit, delete orders or to create a shipping notification, enter via «WSP Order» and then select «To deliver».

7.1 Selection screen

7.2. Order overview

On this level all items for all open orders are displayed.

Please check below the selection of the order date so that really all open orders are displayed.

Order date: >

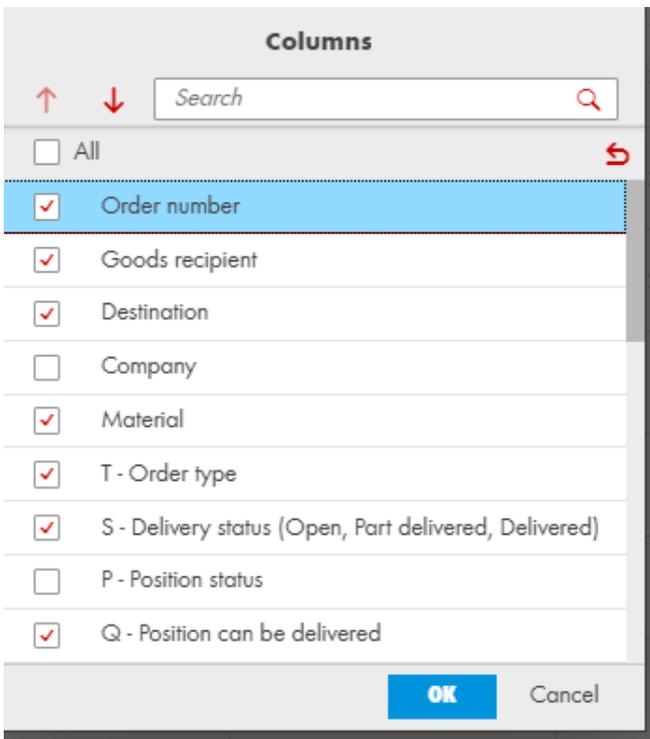

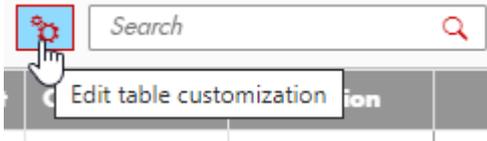

Definition of each column (please scroll down to the very back of the bar):

- Order number** Order number supplier
- Goods recipient** Recipient of the goods, Würth International AG
- Destination** Place where the goods should go
- Material** Article number of Würth
- T-Order type** K= consignment
- S-Delivery status** Open (○), partially delivered (●), delivered (●)
- Q-Position can be delivered** Green tick=ok for delivery
- Supplier material** Article number of supplier

Creation date	Date on which the order was placed
Delivery date	Arrival date in Landquart The date on which the goods will arrive in our warehouse in Landquart.
Goods ready date:	The date on which the goods leave the supplier's premises
Pending quantity	Quantity still to be delivered
Net price	The net price is always zero for consignment
Price Unit	Not important, as net price is always zero for consignment
Origin	Country of origin (e.g. CH=Switzerland)
Avis	<input checked="" type="checkbox"/> The position you want to notify must be selected in the field at the front with a check mark

The individual columns/headings can be sorted via filters.

With the gear icon on the far right you have the option to show or hide columns. To do this, click on the corresponding icon and select the columns you want to see and confirm with «ok».

If you would like to view or print an order at a later date, mark the requested order in the front and then click on the symbol «Print order» at the bottom on the right side.

On header level 1 the following functions are available:

- Supplier** Who registers the shipment? (The Supplier number is not changeable)
- Goods supplier** Pick-up address: Where do the goods have to be picked up? If there is more than one pick-up address, choose the right one.
- Ship to party** Where are the goods sent to? (Würth International AG is not changeable)
- Incoterms:** DAP Landquart (not changeable)
- Availability date** When are the goods ready to be picked up? Adjust the date accordingly.
- Shipper** Field inactive, does not affect consignment

***Transport document number:**

Transport document number: This field is only available for suppliers who do their own shipping. Here you can enter the tracking number. If you do not have a number, you can enter any text. A text must be stored, otherwise the advice cannot be completed.

Delivery number supplier This number is filled in automatically, it does not need to be changed. But you can change it and enter the delivery bill or invoice number.

Dangerous goods **fix deposited**, not changeable

Identification/Note In this field you can note important information e.g. an invoice number etc.

On this position 2 all articles are displayed. If the delivery date is too far in the future, some positions might be inactive. Please adjust the delivery date on the order accordingly. The country of origin and the preference indicator will be automatically filled in by the system. This must correspond with the delivery documents. Please check. Please make sure that the deliverable quantity is correct, if necessary please adjust the quantity (partial delivery etc.).

The sign # in the column «lots» indicates that an item is activated on the construction products regulation. In this case the supplier lot number has to be completed obligatory. Press the sign #.

On this view the entered quantity can then be distributed to one or more supplier batches. Please enter and click on «Save» at the end.

Lots: 0089045344|00001

Quantity in lot	Supplier lot	Origin	Preference	Heat number	Production date	Best before date
220		Germany			dd/mm/yyyy	dd/mm/yyyy

Remaining quantity: 0 / 220

+ x Save Cancel

The sign # means that the addition of the supplier lot number is optional.

Handling unit (3): Here you have to select the handling unit type (Euro- or One-way pallet etc.), fill in the number of handling units, the gross weight and the quantity of the pallet place (picture 1) or volume (picture 2).

Picture 1:

* Volume	Volume unit
<input type="text" value="1"/>	<input type="text" value="Pallet place"/>

Picture 2:

* Calculated volume	Volume unit
<input type="text" value="1.253"/>	<input type="text" value="m³"/>

If you select carton as handling unit, m³ is automatically used as volume unit. The same applies to mixed consignments (example: 1 pallet and 1 carton).

You can add further handling unit types via this field

Handling unit type	Number of handling units	Gross weight	Weight unit	Length [cm]	Width [cm]	Height [cm]	Calculated volume	Volume unit
EURA Europallet	<input type="text" value="1"/>	<input type="text" value="0"/>	kg	<input type="text" value="0"/>	<input type="text" value="0"/>	<input type="text" value="0"/>	<input type="text" value="0"/>	m³
SKART Carton	<input type="text" value="1"/>	<input type="text" value="0"/>	kg	<input type="text" value="0"/>	<input type="text" value="0"/>	<input type="text" value="0"/>	<input type="text" value="0"/>	m³
SKART Carton	<input type="text" value="1"/>	<input type="text" value="0"/>	kg	<input type="text" value="0"/>	<input type="text" value="0"/>	<input type="text" value="0"/>	<input type="text" value="0"/>	m³

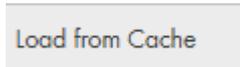

To finish your dispatch advice click **Save**. The dispatch advice number will be generated. Please note this number on the invoice or delivery note (on your own documents). We need this order number for the incoming goods transaction.

If the transport is organised by our Würth Logistic department, please forward the shipping information to the following e-mail address: service@wurth-logistics.com.

7.6 Save your dispatch advice temporarily

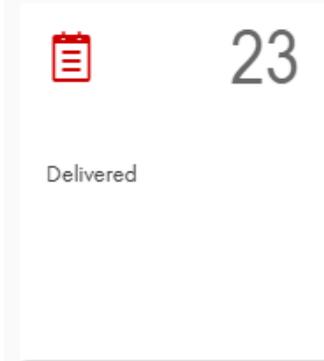

If you want to complete the dispatch note later, you can save it temporarily. Click on this field «cache» in order to

save temporarily. You will find the field **Cache** at the bottom left of the page where you create the delivery advice. To retrieve the cached delivery advise, go back to create delivery note and click on «load from Cache»

8. Delivered

To display «Delivered positions», enter via «WSP Order» and then select «Delivered».

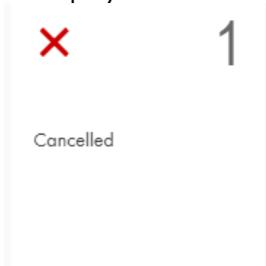

Delivered positions											
Order number	Goods recipient	Destination	Material	T - Order type	S - Delivery status (Open, Part delivered, I	I - Sales tax identification nu	S	Supplier material	Confirmation ...	Transport d...	Creation
89045053 00001	CHWINT Landquart Landquart	Landquart CH	07023270 961 1 BOMA-EL(BM10E COMPACT)KARTON	K	●			0.601.473.W00		3352635	9 Jun 20

Of course, these orders all have the status delivered (●).

9. Cancelled

To display cancelled orders, enter via «WSP Order» and then select «Cancelled».

Cancelled positions											
Order number	Goods recipient	Destination	Material	T - Order type	S - Delivery status (Open, Part delivered, I	I - Sales tax identification nu	S	Supplier material	Confirmation ...	Creation date	Delivery date
89048325 00010	CHWINT Landquart Landquart	Landquart CH	570820427 961 1 BOHANN-EL(R2B-MLS POWER)CH-STECKER	K	○			0.611.267.W33	TF 800603246	16 Sep 2021	2 Mar 2022

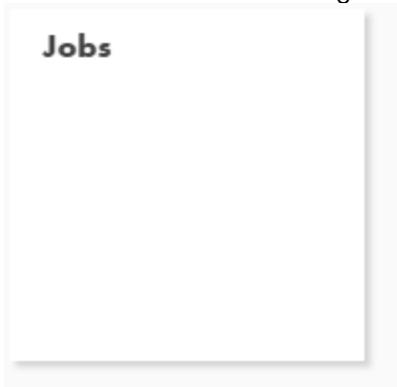

10. Create Jobs

You have the possibility to create a job in the WSP System. The purpose of this job is to export the requested data automatically at a specific time. In the case of WSP, one job can be scheduled for each of the following lists:

- Alarm list
- Consignment stock
- Material movement

10.1 Selection screen

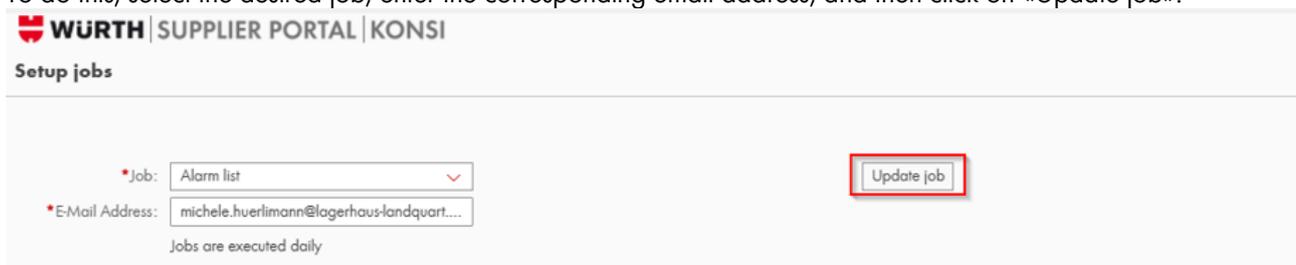

Select the button «WSP Consignment» then click on «Jobs».

10.2 Evaluation

You decide whether the desired list should be sent to an e-mail address. You cannot schedule several jobs for one evaluation list. Furthermore, only one recipient address can be stored per job.

To do this, select the desired job, enter the corresponding email address, and then click on «Update job».

A screenshot of a web form titled "Setup jobs" from the WÜRTH SUPPLIER PORTAL. The form contains two input fields: "Job:" with a dropdown menu showing "Alarm list" and "E-Mail Address:" with the text "michele.huerlimann@lagerhaus-landquart...". A red box highlights the "Update job" button. Below the fields, it says "Jobs are executed daily".

WÜRTH | SUPPLIER PORTAL | KONSU

Setup jobs

* Job: Alarm list

* E-Mail Address: michele.huerlimann@lagerhaus-landquart...

Jobs are executed daily

Update job

An added job appears on the list as follows:

 **WÜRTH** | SUPPLIER PORTAL | KONSU

Setup jobs

*Job:

*E-Mail Address:

Jobs are executed daily

Job	E-Mail Address
3301_0003714198_ALARMLIST	michele.huerlimann@lagerhaus-landquart.ch
3301_0003714198_CONSIGNMENT	michele.huerlimann@lagerhaus-landquart.ch
3301_0003714198_MATERIALMOVEME	michele.huerlimann@lagerhaus-landquart.ch

To edit an existing job, click on the job you want to change and enter for example, a different email address. A job

can be deleted by clicking on the red cross in the far right corner.
